Papers for oral presentation:

1. Fritz John, Formation of singularities in one-dimensional nonlinear wave propagation, *Comm. Pure Appl. Math.*, **27** (1974), 377–405.

2. James Glimm, Solutions in the large for nonlinear hyperbolic systems of equations, *Comm. Pure Appl. Math.*, **18** (1965), 697–715.

3. Ronald DiPerna and P. L. Lions, Ordinary differential equations, transport theory and Sobolev spaces, *Invent. Math.*, **98** (1989), 511–547.

4. Ronald J. DiPerna, Uniqueness of solutions to hyperbolic conservation laws, *Indiana Univ. Math. J.*, **28** (1979), 137–188.

5. Tai-Ping Liu, Asymptotic behavior of solutions of general system of nonlinear hyperbolic conservation laws, *Indiana Univ. Math. J.*, **27** (1978), 211–253.

6. James Glimm and Peter Lax, Decay of solutions of systems of nonlinear hyperbolic conservation laws, *Memoirs of the American Mathematical Society*, No. **101**, American Mathematical Society, Providence, R.I. 1970.
